

Tips Our Brides Should Know

Before Your Bridal Appointment(s)

- All of our packages include a complimentary cosmetic consultation, during this consultation you will be asked to describe your current cosmetic routine and what look you wish to achieve on your wedding day. Other important items to discuss are the location of your wedding (indoors/outdoors), time of day, colors, flowers, attire, accessories and of course, an exquisite bridal hairstyle!
- For your trial visit and your wedding day, please wear a button down shirt as close to the color of your dress as possible, arrive with a clean, moisturized complexion, and it will be helpful to bring your veil and jewelry if available.
- It's important to communicate what you like and dislike during your trial. Being open with your artist will only give you comfort knowing that she can deliver your preferred results.
- If you plan on using any type of tanning or body makeup, please let your stylist know this to ensure the correct color palette is used.
- If you wish to obtain your own supply of cosmetics for touch ups at the wedding, please let your stylist know at the conclusion of your trial.
- For a full up style, it is best that your hair is not be shampooed prior to your visit. Once your stylist evaluates your hair they will determine a specific routine for you before the wedding.
- Try to limit additional visitors (moms and bff's not included) during your salon visits to allow your stylist the opportunity to provide you with the utmost attention you deserve.

If you have additional requests of the salon personnel, please contact our bridal coordinator, we want you to have the most incredible experience on your special day to make your time at Splurge Salon & Facial Bar as relaxing and stress-free as possible!
